Thermal Receipt Paper 80mm x 80mm

Panda Paper Roll's 80mm x 80mm thermal receipt paper rolls are made from premium coated thermal paper and feature precision slitting. White, smooth paper with sharp, clear print images without the need for ink or ribbons.

Overview

Our 80mm x 80mm thermal paper rolls are widely used for POS receipt printers, cash registers, ATMs, kiosks, parking systems and other payment terminals.

With excellent thermal sensitivity and smooth paper surfaces, our thermal paper roll ensures reliable printing performance, reduces printer jams and leaves no paper residue.

BPA-free, BPS-free, and phenol-free paper options are available upon request.
